

## intelliAsset for Silos

Supply Chain Optimization and Silo Management for Modern Ready-Mix Concrete Business.

Flawless supply chain management ensuring on-time delivery of Ready-Mix Concrete (RMX) to the customers is critical to the success of RMX businesses. However, to ensure this, RMX businesses must overcome:

Supply chain inefficiencies owing to the non-visibility of inventory

Volatile customer demand and delayed access to demand information

Risks related to employee health and safety, and Silo breakdowns

Inefficient logistics and plant operations

Inability to remotely monitor processes and asset health (silos, filters, etc.)

### Introducing intelliAsset for Silos

intelliAsset for Silos is a Ready-Mix Concrete(RMX) Supply Chain Optimization solution that helps RMX businesses monitor, manage, and control inventory and assets (Silos, etc.). It leverages the power of the latest digital technologies such as the Internet of Things (IoT), Artificial Intelligence (AI), Machine Learning (ML), etc. to enable the following core areas of a modern RMX business:

Smart Connected Silos

Supply Chain Optimization

Vendor-managed Inventory

Customer Experience

### Key Features

Built on Birlasoft's Action and Analytics platform – intelliAsset provides smart automation, remote monitoring, and integrated data access features across the supply chain.

## IntelliAsset for Silos Features

### Enhance Supply Chain Visibility and Operational Performance

RMX Plant Operator Cement Distributor or Vendor

- Order tracking, receipts and monitoring
- Plant-wise summary and inventory visibility at Silo level
- Auto replenishment and replenishment Analytics
- Automated Cement Reordering

## Key Benefits

- Effort savings and improved utilization
- Improved production reliability and better control of inventory
- Higher return on assets and equipment
- Better Health, Safety, and Environmental (HSE) compliance
- Reduced administrative work
- Employee and customer delight

## The Birlasoft Edge

### Reliability and Quality

Enterprise-grade solution built on an IoT platform

### Scalability

Scalable to support your growing business needs

### Customized for Business

Integrates with your end-to-end supply chain or can be customized for limited functionalities as required

### Cost-effective and Compliant

Reduction in cost of operations and logistics and increased utilization of Silos and Plants
